

IN THE SPECIFICATION

Kindly replace the paragraph beginning on page 3, line 4 with the following paragraph:

“In many companies project management is performed using a Work Breakdown Structure (WBS) which defines a product being developed. A responsibility assignment matrix is used to state who performs each task in the WBS. ~~The RAM and WBS are described, for example, in <http://nnh.com/ev/> available in November 1999, the disclosure of which is incorporated herein by reference.~~”

Kindly add the following paragraph beginning on page 9 after line 13:

Fig. 1 also shows an aircraft 37 being designed by workers of worker environment 10.”

Kindly replace the paragraph beginning on page 18, line 5 with the following paragraph:

“Alternatively to assigning the codes as described above, the MRD codes are assigned based on existing code systems from various fields of aircraft design, such as the wire codes defined in the above mentioned MIL-W-5088L standard. Optionally, two letters are added before these standard codes to designate the system and/or discipline to which they belong, in order to prevent two codes from different disciplines from assigning identical values.”
